# **Quick Reference on Mental Health for Faith Leaders**

#### MENTAL ILLNESS IS COMMON. In the United States in the last year:

Any mental illness more than 1 in 5 people Serious mental illness— 1 in 20 people Substance use disorder— 1 in 6 people

# SUICIDE IS THE 11<sup>TH</sup> LEADING CAUSE OF DEATH IN THE U.S.

### OBSERVABLE SIGNS: Some Signs That May Raise a Concern About Mental Illness

These observations **may** help identify an individual with a mental illness; they are not definitive signs of mental illness. Further mental health clinical assessment may be needed.

CATEGORIES OF OBSERVATION	<b>Cognition:</b> Understanding of situation, memory, concentration	Affect/Mood: Eye contact, outbursts of emotion/ indifference	<b>Speech:</b> Pace, continuity, vocabulary (Is there difficulty with the English language?)	<b>Thought Patterns</b> <b>and Logic:</b> Rationality, tempo, grasp of reality	<b>Appearance:</b> Hygiene, attire, behavioral mannerisms
<b>EXAMPLES OF OBSERVATIONS</b> (Does something not make sense in context?)	<ul> <li>Seems confused or disoriented to person, time, place</li> <li>Has gaps in memory</li> <li>Answers questions inappropriately</li> </ul>	<ul> <li>Appears sad/ depressed or overly high- spirited</li> <li>Overwhelmed by circumstances</li> <li>Switches emotions abruptly</li> </ul>	<ul> <li>Speaks too quickly or too slowly, misses words</li> <li>Has long pauses in speech (unexplained)</li> </ul>	<ul> <li>Expresses racing, disconnected thoughts</li> <li>Expresses bizarre ideas responds to unusual voices/visions</li> </ul>	<ul> <li>Appears disheveled; poor hygiene</li> <li>Wears inappropriate attire</li> <li>Trembles or shakes, is unable to sit or stand still (unexplained)</li> </ul>

# COMMUNICATION: When a Mental Health Condition Is Affecting an Individual

- Speak slowly and clearly; express empathy and compassion
- Treat the individual with respect
- Listen; remember that feelings and thoughts are real even if not based in reality
- Give praise to acknowledge/ encourage progress, no matter how small; ignore flaws
- If you don't know the person, don't initiate any physical contact or touching

### **EXAMPLES OF COMMON OBSERVATIONS**

#### Loss of hope: appears sad, desperate

#### **Recommendations for Responses:**

- As appropriate, instill hope for a positive end result
- To the extent possible, establish personal connection

#### Loss of control: appears angry, irritable

#### **Recommendations for Responses:**

- Listen, defuse, deflect; ask why he/she is upset
- Avoid threats and confrontation

#### Appears anxious, fearful, panicky

#### Recommendations for Responses:

- Stay calm; reassure and calm the individual
- Seek to understand

#### Has trouble concentrating

#### **Recommendations for Responses:**

- Be brief; repeat if necessary
- Clarify what you are hearing from the individual

### IMMEDIATE CONCERN: Approaching a Person With Mental Health Concern

- Before interacting, consider **safety** for yourself, the individual, and others
- Is there a family member or friend who can help?
- Find a good, safe place (for both) to talk
- Express willingness to be there for the person
- Seek immediate assistance if a person poses a danger to self or others; call 988

# SUICIDE:

Thoughts of suicide should always be taken seriously. A person who is actively suicidal is a psychiatric emergency. Call 988.

#### WARNING SIGNS OF SUICIDE

- Often talking or writing about death or suicide
- Comments about being hopeless, helpless, or worthless, no reason for living
- Increase in alcohol and/or drug use
- Withdrawal from friends, family, and community
- Reckless behavior or engaging in risky activities
- Dramatic mood changes

#### **RISK FACTORS FOR SUICIDE**

- Losses and other events (e.g., death, financial or legal difficulties, relationship breakup, bullying)
- Previous suicide attempts
- History of trauma or abuse
- Having firearms in the home
- Chronic physical illness, chronic pain
- Exposure to the suicidal behavior of others
- History of suicide in family

# REFERRAL: Making a Referral to a Mental Health/Medical Professional

#### Assessing the person

- Level of distress— How much distress, discomfort, or anguish is he/she feeling? How well is he/she able to tolerate, manage or cope?
- Level of functioning— Is he/she capable of caring for self? Able to problem solve and make decisions?
- Possibility for danger—danger to self or others, including thoughts of suicide or hurting others

#### Tips on making a mental health referral

- Identify a mental health professional, have a list
- Communicate clearly about the need for referral
- Make the referral a collaborative process between you and the person and/or family
- Reassure person/family you will journey with them
- Be clear about the difference between spiritual support and professional clinical care
- Follow-up; remain connected; support reintegration
- Offer community resources, support groups

#### **DEALING WITH RESISTANCE TO HELP**

Resistance to seeking help may come from stigma, not acknowledging a problem, past experience, hopelessness, cultural issues, or religious concepts

- Learn about mental health and treatments to help dispel misunderstandings
- **Continue to journey** with the person/family; seek to understand barriers
- Use stories of those who have come through similar situations; help the person realize he/ she is not alone and people can recover
- **Reassure** that there are ways to feel better, to be connected, and to be functioning well
- If a person of faith, **ask how faith** can give him or her strength to take steps toward healing

## If you believe danger to self or others is imminent, call 988
